TREE KNOCKS DOWN HIS TOWER

TIDE OF UNEMPLOYED SHOULD BE STEMMED

The increasing tendency toward unemployment in the north, where, in the great industrial centers, hundreds of thousands of men are reported out of work, during the present adjustment of business conditions, is reflected in Daytona, as well as in other resort sections of the state, a reflection which is working toward hardship.

Every day sees scores of young men arriving in Daytona looking for employment. Some are skilled in various trades, while a majority of them are ready and willing to take anything that will tide them over, now that they are here. Daytona, like a majority of resort cities, is not able to absorb a large moving population looking for employment, with no large industries located here, and with but little change in employment during the winter season. As a result the city is becoming overburdened with men out of employment.

The Associated Charities, which conducts an employment service, has been flooded with applications for work far in excess of the number of positions open. The Daytona Chamber of Commerce reports the same condition, having to means of finding employment for those needy of work.

It is fast creating a condition which is working a hardship on those who are already here, without employment, and with little possibility of employment.

This situation has been created largely through the northern press, where, in many instances, people are informed that work is plentiful, pay high, and that it costs so much less to live in the Sunny South than in the north, all of which are wrong impressions. The South, generally speaking, is not able to take care of this great influx of labor, and resort cities like Daytona, less able than many of the larger cities.

Laborers coming South for employment must bear in mind that they will be in direct competition with negro labor, which as a rule is at a considerable lower rate of pay than whites are accustomed to. This feature of labor in the South is little understood in the north, but enters largely into conditions here in the winter.

WILSON MAY OFFER SUGGESTION AS WAY TO RELIEVE FARMERS

(United Press.)
WASHINGTON, Dec. 2.—Adoption of the League of Nations may be Wilson's suggestion to congress as a proper way to relieve the conditions confronting the farmers resulting from rapidly falling prices of agricultural products.

The president it was indicated, is considering offering the suggestion in his forthcoming congressional message. Today's indication was the first from any authoritative source that Wilson is considering working the treaty of the league in his message.

MONITORING MAY BE ENFORCED TO SAVE CROPS IN GEORGIA

(The Associated Press.)
ATLANTA, Dec. 2.—Governor Dyer is considering the request of the Commission of Agriculture for an extra session of the legislature for the enacting of a stay law, or moratorium, to run for twelve months. At a conference with the Governor, Commissioner Brown said that farmers' livestock and implements are being sold under foreclosure and if general foreclosures develop crops cannot be produced and will bring complete agricultural demoralization. The commissioner believed similar legislation is necessary for all cotton states.

JUNIOR HANKINS HOST TO FOLLOW PUPILS ON BIRTHDAY

Junior Hankins, nine year old son of Mr. and Mrs. W. M. Hankins, was host to the pupils of Mrs. Hankins' school Wednesday, the event being Junior's birthday, to which he invited all the little tots at the school, and the teachers to partake in the celebration of the event.

The afternoon of pleasure was delightfully interrupted by a generous supply of ice cream, birthday cake, and other goodies which the children thought pretty nice. The day will long be remembered by his fellow pupils as well as by Junior, as a unique and pleasurable way of spending a birthday celebration.

Mrs. A. S. Harrison has just received the sad intelligence of the death of her friend, Mrs. Percy Haviland, at Havana, Fla., her winter home. Her summer home was in St. Charles, Ill. Mrs. Haviland had often visited here and has many friends, who will be greeted by the unwelcome information.

Attorney and Mrs. Nelson C. Water, for many years a resident of Massena, Mich., and Mrs. C. L. Robinson of Adrian, Mich., are located at 112 Orange street. Mr. Water has not found anyone yet, since his arrival, who has been able to clean him up in a game of checkers. He is looking for more comers and burrs no one.

Director R. F. Powers of the music festival says the reasons tickets to this event can be sold at 50 cents each is because of the large seating capacity of the Auditorium. It will be seen that 2,500 tickets at this price means door receipts amounting to \$1,250. If the house is filled for every performance the management will not complain of the patronage.

D. D. Marston has purchased of Mrs. Julia Wighton Johnson, wife of Harry Johnson, an apartment house in Seabreeze, on Palmetto street. Also a vacant lot adjoining. The deal was made by F. M. Williams of the Florida Realty company, who sold Mr. Marston another apartment house here about a year ago. At that time he moved here from Sanford and has liked it so well has remained here since.

"I've got a note," put in another girl, "from a dark stranger who says it's my own fault if I ever go home in the street car. He's got a couple of Rolls-Royces, lying around, rusty for lack of use. I say, girls, leave by look him over. He'll be at the stage door with a white flower in his button-hole."

The girl-boy handed me a few letters, too. They were all from high school girls, saying how much they admired me and would I please send an autographed photograph—they were making a collection "of their favorite actresses."

"Listen to this 'John'!" He says I remind him of the woods in springtime—Oh, boy, wouldn't that keep you awake? He wants me to go out in the country with him Sunday. Probably in the subway to Bronx Park. Can you see little Toddlie toddling around looking at the pretty animals? Will I go? You tell him, look, you got the nerve?

"I've got a note," put in another girl, "from a dark stranger who says it's my own fault if I ever go home in the street car. He's got a couple of Rolls-Royces, lying around, rusty for lack of use. I say, girls, leave by look him over. He'll be at the stage door with a white flower in his button-hole."

The girl-boy handed me a few letters, too. They were all from high school girls, saying how much they admired me and would I please send an autographed photograph—they were making a collection "of their favorite actresses."

Arranged for Orlando Fair

Complete preliminary plans for the Volusia county exhibit to be made at the Orlando Fair were consummated by the county committee at the office of the Daytona Chamber of Commerce Wednesday afternoon, with a full attendance of the committee on hand.

It was decided at that time to make at least a portion of the exhibit of a marine nature, showing the cultivation of the oysters, shell food, and other exhibits of this nature. A portion of the exhibit will also be devoted to curios and relics, of interest in connection with the early history of the county. The committee is desirous of getting in touch with anyone having relics of this nature, and promise full protection of all valuables given for the exhibit.

The Daytona Industrial school will also make an exhibit at that time, as last year, and a portion of the Volusia county show will be devoted to agricultural exhibits, given by growers of this vicinity who are to notify the committee to what extent their exhibit in this line will be.

The Volusia county commissioners have appropriated \$500 for this exhibit at the Orlando fair, where, last year, Volusia carried off practically every first prize, and where this county eclipsed the exhibits of all other counties. It is hoped that the show this year may also be of the best, and every endeavor of the committee is being put forth to this end, if co-operation is given.

When Volusia carried off honors last year, the section about Daytona was far, other sections of the county, even Ormond and Port Orange overshadowing the Daytona end of the exhibit. For this reason it is hoped that the Daytona portion of the show may greatly excel last year's exhibit.

Because Volusia county so greatly helped last year to promote the show, and to make the fair a great success, the fair board has given this county first choice at the fair this year of location, and all the room for their exhibit desired. The committee will meet in Orlando, Jan. 4, to confer with the fair board on the exhibit and to arrange preliminary displays.

Secretary Crosby is desirous of making this year's fair exhibit as versatile as possible, showing every line of development in the county, and the plans for the show will be carried out along this line by the committee.

Mrs. Mary A. Jackson, owner of the Prospect, returned yesterday from Los Angeles and Hollywood, Cal., where she has been for the past six weeks. Mrs. Jackson left her summer home at West Haven, Conn., about the first of October for the California trip, on which she was accompanied by Mr. Rose and Mr. Saunders, who have come to Daytona with her to spend the winter season.

CASINO MONDAY

The first meeting of the Tourist club for the season of 1920-21 will be held at the Casino Burgoyne Monday afternoon at 2:30, at which time it is hoped to have out several hundred members of the club who took an active part in the organization last year.

It is hoped that the organization may this year be greatly enlarged, with all tourists in the Triple Cities helping to make the club one of the big features for entertainment and housing for this community.

While the club held meetings last year at the Auditorium on the peninsula, the inability of the committee to secure building next Monday makes it necessary that the club hold the first session at Casino Burgoyne.

The Tourist club, which is composed of state clubs from many of the northern states, made up of residents of those states having a number of residents here for the winter, will, it is planned, be made a leading factor in the tourist life of the Triple Cities, combining the tourists of the three cities in one large, active body.

Every tourist in the Triple Cities is requested to be present at the first reorganization meeting of the club next Monday.

The local committee to conduct the sale of Red Cross Christmas Seals, for the cause of eradicating tuberculosis, is now ready to begin their campaign.

Mrs. M. L. Stanley has been appointed by R. H. Hixon, executive secretary of the Florida Tuberculosis Association, to act as chairman for Daytona, and the following committee has been appointed: Mrs. C. M. The hearty co-operation of every man, woman, and child is asked, in order that Daytona may reach her quota of 50,000 Christmas Seals.
